Garage Doors Designed for Life

Shown:
Sheridan XL White

The Kanata Collection™

Combines style, durability and environmental friendliness. Polyurethane insulation is foamed in place, which ensures a consistent density and significant panel strength. With a 1 ³/₄" (44.5mm) thickness, R-value of 16.3, enhanced tongue and groove joint and a true thermal break, the Kanata Collection is an excellent choice for those who are looking for a high-quality, energy efficient residential garage door.

Denison White

The Craft Series™

Our premium residential offering, representing the ultimate in style, durability and environmental friendliness. The three-section, 1 ³/₄" (44.5mm) thick, taller panel design with an R-value of 16.3 appeals to the discerning homeowner who wants a distinct look without having to make compromises on the quality of their garage door.

Features and Options

- 26-gauge, pebble embossed exterior and interior steel back sheet
- Environmentally friendly polyurethane insulation, 100% CFC free
- Built in thermal break prevents cold/heat transfer from the exterior to the interior of the door

Modern Design

Shown: Solalite in black with Opal Glazing

Solalite™

Ultra modern design, The Solalite™ door is an exceptional example of innovation and engineering. This door is impact, corrosion and moisture-resistant. The Solalite's sleek and contemporary appearance blends with current architectural trends. A door sure to stand out on your block!

Features and Options

- Manufactured from 2" thick (50.8mm) corrosion-resistant aluminum extrusions.
- Standard clear anodized finish.
- Polycarbonate, translucent glazing is lightweight, virtually unbreakable and energy efficient.
- Continuous hinge design inhibits water build-up between sections and prevents air infiltration, which maximizes thermal resistance
